LIVES**

METINVEST

Dear Partner

As you, probably, know 24 February 2022, Russia invaded Ukraine and unleashed a full-scale war that is causing civilian deaths each and every day. Many Ukrainian cities are now struggling for survival and are on the edge of a humanitarian disaster. Millions of refugees are fleeing from the war.

Civilians in Ukraine suffer not only from shelling and bombing, but also often from a lack of access to food, water, basic necessities, medical care and medicines. Basic needs include:

- **Long-life food products**
- *Canned products (meat, fish, pates, etc.), cereals, crackers/biscuits, pasta, porridges and instant soups, condensed milk/nut pastes, chocolate, sugar, salt, tea, coffee, bottled water, etc.*
- **Baby food and care products**
- *Baby bottle-feeding mixture for new-borns and babies (with a shelf life of at least 2 months), pureed baby food, nappies (diapers)*
- **Hygienic and essential goods**
- *Matches, candles, disinfectants, cleansing wipes, disposable cutlery sets (deep plates, spoons, mugs/glasses), toothbrushes, toothpaste, toilet paper*

Metinvest and DTEK, part of Ukraine's largest SCM Group, with the support of the Office of the President of Ukraine, in coordination with the Rinat Akhmetov Foundation and jointly with municipal administrations, have created and are financing the Saving Lives Humanitarian Centre (for more information savinglives.scm.com.ua).

The initiative provides large-scale and continuous humanitarian assistance with the involvement of our international partners in the form of food and essential goods. In order to achieve this, we created a hub in Poland where we aggregate wholesale shipments that are delivered in coordination with the Government of Ukraine to the cities and the regions of Ukraine with the greatest need. We have been working in close cooperation with the local authorities and humanitarian headquarters and have the ability to engage local volunteers to organise aid distribution in the regions

We would be thankful for your willingness to help Ukraine in such a difficult time.

If you would like to support Ukrainian people please use the next options:

Gentili clienti, fornitori e partner,

la catastrofe umanitaria causata dalla guerra in corso è sotto gli occhi di tutti.

In questo terribile contesto **Metinvest** e **DTEK**, parte del Gruppo SCM, in coordinamento con la **Fondazione Rinat Akhmetov**, hanno **creato il Centro Umanitario Saving Lives** (savinglives.scm.com.ua), che dal suo hub logistico in Polonia distribuisce aiuti umanitari alle città e regioni dell'Ucraina che ne hanno più bisogno.

Chiunque può contribuire a sostenere il Centro, ed è per questo che **Vi invitiamo** ed essere al nostro fianco con un **contributo economico**, utilizzando il conto dedicato di cui riportiamo di seguito gli estremi:
